MEDICAT Protected Signs

Medicat Protected signage provides the professional medical occupational environment signage solution in accordance with AS/NZS 3003

MCCPA

Section 2 of AS/NZS3003 for CARDIAC PROTECTED AREAS (MCCPA application)

The MCCPA sign is constructed in accordance with clause 7.2 Figure 16 of the AS/NZS 3003 standard and follows the requirements for white print on a green background referenced to the signage requirements of AS 1319 (Safety signs for Occupational Environment). The signs allow for the addition of labels as required in the upper left required for clause 2.13, date and report number in lower right as well as the upper right for the commissioning detail. The sign dimensions comply with the requirements of 200mm wide by 90mm high with a tolerance of +5% -0%.

MCBPA

Section 3 of AS/NZS3003 for BODY PROTECTED AREAS (MCBPA application)

The MCBPA sign is constructed in accordance with clause 7.2 Figure 15 of the AS/NZS 3003 standard and follows the requirements for white print on a green background referenced to the signage requirements of AS 1319 (Safety signs for Occupational Environment). The signs allow for the addition of labels as required in the upper left required for clause 2.13, date and report number in lower right as well as the upper right for the commissioning detail. The sign dimensions comply with the requirements of 200mm wide by 90mm high with a tolerance of +5% -0%.

MEDICAL PURPOSES ONLY

Cleaning Guide:

Spraying cleaning products on to electrical products is not recommended.

It is important to ensure that switches are turned off before cleaning.

Do not use any cleaning sprays - only wipe down with damp cloth or rub with dry cloth. (Do not use an abrasive cloth as it may scratch the plastic).

Do not use harsh chemical cleaners as these can break down the plastic and cause it to crack.
