

BUFFALO ™

IP66 Combination Switched Socket with 30mA RCD protection.

Buffalo offers an extensive range of IP66 rated Combination Switched Sockets that are available in three-pin 10A and 15A, and five-pin 10A, 20A, 32A, 40A and 50A designs.

This range has now been expanded to include Wolverine range 30mA RCD protected combinations mounted in BU4DIN covers on BUBB4G four gang enclosures and pre-wired for ease of installation for the end user.

Cable links and assemblies have been tested in accordance with AS/NZS3100 to ensure suitable thermal performance.

The RCD protected range currently consists of:

- Single phase Flat pin - 10A and 15A combinations
- Size 1 Three Phase 5 pin - 10A and 20A combinations
- Size 2 Three Phase 5 pin - 32A - 50A combinations

As standard the DIN covers are non-power available variants.

Other options may be available upon special request.

Functions:

The Switched Socket provides a standard power outlet for connecting electrical devices.

RCD Protection incorporates a Residual Current Device, monitoring the circuit's electrical current.

Upon detecting leakage, signalling a potential fault, it cuts off power to prevent electric shock.

Benefits:

Conveniently combines a power outlet and safety feature in a single unit.

Provides added protection (safety) against electric shock, especially in areas prone to water exposure.

Applications:

Ideal for Wet Areas or outdoor environments with exposure to moisture.

Ensures Compliance by meeting Australian electrical & safety standards.

Note: All units are made to order with a 4-week lead time. Please enquire for availability, and pricing.
