

Industrial Range

Looking for an alternative to other brands?
Our Industrial Range, the Buffalo is here now!

100 Years of Gerard Electrical Tradition

A Comprehensive Backward Compatible Range of
Industrial Switchgear & Sockets which performs in the dust and the wet
with the strength, safety and performance of a Buffalo

Buffalo combinations, switches and sockets are tough and robust and perform well in the dust and the wet; they provide resistance to chemical attack, weather effects and are impervious to the ingress of dust and the damaging effects of water.

The range offers products with a dependable protection rating of IP66 to cover many arduous applications.

SIXTY ONE (61) INDUSTRIAL RANGE PRODUCTS FOR THIS CATEGORY
