

Smart Touch luxury with a touch of glass

Senoa has a premium touch sensitive glass fascia ideal for architectural homes, with a simple profile that looks exquisite on any wall for any project. And so easy to use. A personalised experience, that is unique to you, with colour tuneable surfaces with optional laser engraved icons provides a tailored experience, to make it your own. We've made control a seamless experience at the switch, on your phone or with your voice.

Simple on the outside. Smarter on the inside.

Senoa and Senoa Simple products will only become available in 2023. Please check for availability.

Traditional style sockets and switches designed to blend with Senoa 'smart touch' products.

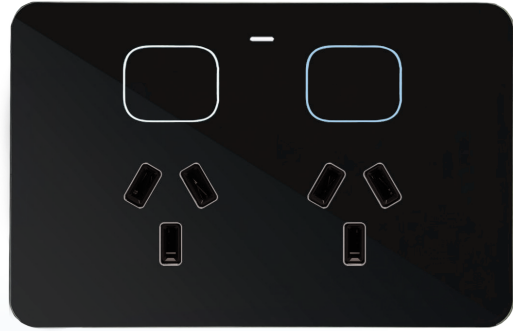

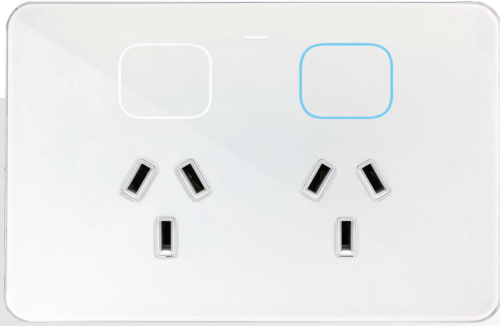

Senoa Simple products can be fitted with rocker or push button switch mechanisms.

A touch of glass with the power to create smart experiences like never before.
