See current catalogue for further detail

Weatherproof Switches

- 16AX/20A 250V ac rated modular weatherproof switches.
- Heavy duty switch mechanism with additional mech securing screws.
- HPSW1GI is populated with an intermediate switch.
- The Hippo product including dollies, is made from UV Stabilised Polycarbonate to avoid discolouring.
- Switches are single pole two way with looping terminal.
- IP66 ideal for prevention against water or harmful objects that may compromise conventional light switches. Perfect for use in exterior applications, or damp/dusty environments such as building exteriors, carports, gardens or workshops.
- Styling matches the rest of the Trader Hippo family of products.
- Back mounting boxes that contain 20mm and 25mm plain entries.

Cleaning Guide:

Spraying cleaning products on to electrical products is not recommended.

It is important to ensure that switches are turned off before cleaning.

Do not use any cleaning sprays - only wipe down with damp cloth or rub with dry cloth. (Do not use an abrasive cloth as it may scratch the plastic).

Do not use harsh chemical cleaners as these can break down the plastic and cause it to crack.

Grey or Black.

Catalogue Number	Description
