THE DATANATOR 2

Ultimate Termination Tool

Terminate your RJ45 data jacks fast and efficiently with our new & improved MERJCMTT Meerkat Termination Tool for all Cat5e, Cat6 and Cat6A Data Jack Mechs.

With a new easy-to-use hinge design, this unique tool features a unique locking mechanism that ensures wires are neatly cut and data mech correctly seated. The terminational tool can be used for terminating Australian style (AUS) or Standard Keystone Jacks (STD).

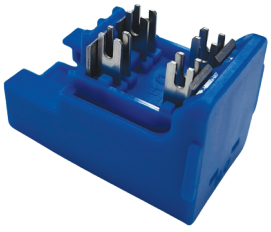

Replacement cutting module (MERJCMTTRC) is also available separately.

Make your next data jack termination a fast one.
