SAFE SECURE
VANDAL PROOF

Fit-for-purpose Vandal Proof design

The Puma Vandal Proof range of switches and power points is a modern, fit-for-purpose design created for public schools, Housing Trust and correctional facility installations. The grid and cover plate is a solid one piece construction with no removable cover. Switch mechanisms are backed up with security screws preventing dislodgement. The power points also are shuttered, allowing only plugs to be inserted. Once removed, the shutters close preventing ingress of objects.

The range can accommodate labels, mech printing as well as the facility to incorporate circuit ID identification.

Puma Vandal Proof is similar in appearance to Trader's residential Puma design, square and modern includes switches, power points, a Type A&C USB charger, data comms plates, red power points for emergency power outlets, blue power points for computer only outlets and architrave switches.

Power points constructed in transparent polycarbonate, enable prison staff at Mobilong Jail, SA to identify any contraband.

"The internal shutters makes it hard for inexperienced or young people to hurt themselves by trying to lodge push paper clips etc in the socket to see what happens. The shutters stop most foreign matter from entering the socket area, therefore giving the parent and older carers /teachers the peace of mind as to their safety."

Double Pole

When it has to be double pole Puma has your needs covered including USB chargers. Our new double pole Puma Vandal Proof USB Charger offers both Type A&C charging ports and is ready to charge the latest phones up to 3.4 Amp at 5V. Sockets are double pole and shuttered for added safety. Ideal for portable installations, temporary offices and accommodation units.

When you need occupancy only room lighting access our NEW Puma Vandal Proof Key Tag Switch is your new go-to solution. Simple, reliable and cost-effective, each unit gives you four 16A/10AX switch mechanisms plus 2 additional blank apertures for retrofitting extra switches or neon indicators. Ideal for hotels, motels and accommodation units. Extra key tags also available.

"The double pole shuttered outlets and screw secured switch mechanisms all appear to be of industry quality and the screw covers fit nicely when installed."

Innovative Cabling

"Vandal Proof is appropriate for use in any environment where tampering may be a risk".
Electrical Allsorts

Our Puma Vandal Proof power point Double Pole solutions are fully compliant with Australian wiring rules for portable installations, temporary offices and accommodation units, as both the active and neutral circuits are switched. This provides greater safety as appliances are isolated and the user is completely disconnected from the mains.
