Electrical Solutions
Caravans & Camping Grounds

Maximise the electrical safety and convenience for your guests and occupants with the very latest electrical solutions from Trader, Australia's fastest growing brand of switches, sockets and wiring accessories.

We are local, Australian owned and represented in every state and territory.

Safer switching

Hippo socket inlets and outlets provide safe and reliable power access for caravans and motorhomes. Rated IP34, both models are made from tough UV resistant polycarbonate and designed for heavy duty usage.

Key feature is that the inlet and outlet covers can be closed in position with a plug inserted. Available in black or white.

Fully charged

Keep your phones and appliances charged and topped up with our market leading range of USB Type A & C chargers. Our Puma 4X4 charge at an impressive 3.1A when one device is inserted and splits the current when both ports of each row are in use.
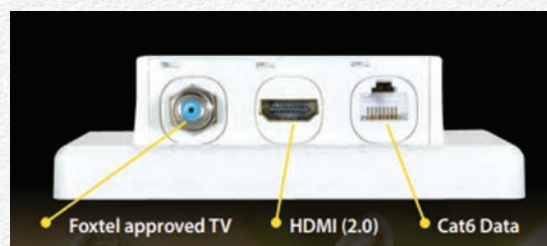

Power outlets are wide for power packs plus double pole design makes these very safe.

That's entertainment

Get a true flush mounted TV installation with a Puma Entertainment plate. Available blank or pre-populated with Foxtel approved TV, HDMI (2.0), Cat6 Data.

Foxtel approved TV   HDMI (2.0)   Cat6 Data

All weather connection

Perfect for powered sites, Buffalo industrial switchgear offers full IP66 weatherproof performance, withstanding dust and water. Made from UV resistant polycarbonate. Buffalo will deliver many years of reliable service.

Connect & protect

Protect yourself, family and equipment with the Ampfibian range of weatherproof connection protection accessories. These weatherproof power adaptors safely connect a 15A caravan to any domestic 10A power supply.

All charged up

Fitting out fixed campsite cabins and common areas? Give guests all the power and USB charging needs with Puma USB power points and USB chargers. Various models available including these with Type A&C charging ports.
