

AMPFRVPLUS

Cleaning Guide:

Spraying cleaning products on to electrical products and equipment is not recommended.

It is important to ensure that switches are turned off before cleaning.

Do not use any cleaning sprays - only wipe down with damp cloth or rub with dry cloth. (Do not use an abrasive cloth as it may scratch the plastic).

Do not use harsh chemical cleaners as these can break down the plastic and cause it to crack.

Ampfibian Power Adaptor Max 15A to 10A IP55 with 10A 2400W Overload Miniature Circuit Breaker With RCD for RV's & Caravan's

The Ampfibian RV-PLUS Power Adaptor is specifically designed for caravans/motor homes, allowing you to connect your 15A caravan to any domestic 10A power supply. It's weather proof to IP55 and has a built-in padlock attachment which also locks the lid.

The RV-Plus adaptor is certified to comply with Australian electrical standards, allowing safe and legal connection between 15A devices and 10A domestic power supply.

The Ampfibian RV-PLUS comes with a miniature circuit breaker which acts as a 10A power limiter protecting your power point and wiring from overheating. It also comes with an RCD (residual current device) to protect against electrocution.

Designed and made in Australia for the tough Australian conditions, the RV-PLUS comes with a 2 year product warranty giving you extra peace of mind, making this the ultimate Caravan accessory.

Ampfibian Weatherproof Connector Protector X2

The Ampfibian X2 Weatherproof Connector Protector is designed to keep your outdoor power connections dry and safe. Designed and made in Australia for tough Australian conditions, the X2 is a robust little performer.

UV resistant and waterproof, the clear housing makes it easy to see the power indicator lights inside and check that your cables are safely connected and secure. Patented sealing technology adapts to leads up to 12mm providing weather protection up to IP55.

Whether you're setting up camp at a powered site, plugging in the Christmas lights, or plugging in a pool at home, the X2 will have you connected safely.

Specifications

- Fits standard and heavy-duty extension leads
- Patented seal adjusts to 10A & 15A leads up to 12mm diameter
- Simple opening and positive closing
- Tough IK-08 impact resistance
- IP55 weatherproof and UV-resistant polycarbonate casing
- Independently tested and approved to Australian Standards

AMPFX1

Cleaning Guide:

Spraying cleaning products on to electrical products and equipment is not recommended.

It is important to ensure that switches are turned off before cleaning.

Do not use any cleaning sprays - only wipe down with damp cloth or rub with dry cloth. (Do not use an abrasive cloth as it may scratch the plastic).

Do not use harsh chemical cleaners as these can break down the plastic and cause it to crack.

Ampfibian Weatherproof Connector Protector X1

Ampfibian's X1 Weatherproof Connector Protector provides the ultimate connection security and weather protection when you're plugging in outdoors. The X1 is designed and manufactured in Australia for tough Aussie conditions. It's rated tradie-tough so it's ideal for commercial and trade applications.

The X1's spring-loaded cleats keep your connections firmly locked together, while patented sealing technology keeps the inside dry and protected to IP55 standard. That's the equivalent of a direct jet from a garden hose, eliminating the risk of electrocution.

Flip out hooks allow you to hang connectors safely out of the way and the housing can be locked with a padlock or cable tie to prevent your cords going walkabout.

On a camp site, a work site or in your own backyard, the X1 provides the ultimate weatherproof protection giving you extra peace of mind.

Features & Specifications:

- Fits standard and heavy-duty extension leads
- Vice-like clamps keep cords securely connected
- Patented seal adjusts to 10A & 15A leads up to 12mm diameter
- Clear casing to check connections and power indicator lights
- Simple opening and positive closing
- Tradie tough IK08 impact resistance
- IP55 weatherproof and UV-resistant polycarbonate casing
- Independently tested and approved to Australian Standards

Ampfibian Power Adaptor Max 15A to 10A, IP55 with 10A 2400W Circuit Breaker & RCD

The Ampfibian Max 15A Power Adaptor is designed and built extra tough for commercial use. The Max allows you to safely and legally connect your 15A device e.g. caravan, compressor, welder or grinder to any domestic 10A power supply. The Ampfibian Max comes with protection from overloads with an in-built miniature circuit breaker and protection from electrocution with an RCD (residual current device).

With dual lids, you can attach a lock out tag to the breakers, while additional safety features include lead retaining cleats to keep your cords in place, thicker and tougher cords, a folding hanging loop and a stainless-steel bracket to lock the MAX up.

Water-resistant to IP55, and impact resistant to IK08, it is H-class rated for trade and commercial use. The MAX works with ordinary and heavy-duty leads up to 12mm diameter.

Designed and manufactured in Australia, the Ampfibian MAX is our toughest performer and comes with a 2 year product warranty, making this the ultimate power adaptor for caravanners and tradies.

Specifications:

- 15A power adaptor
- 10A 2400W overload circuit breaker
- RCD earth leakage protection
- For ordinary and heavy-duty outlet leads up to 12mm diameter
- Automatic cleat prevents accidental disconnection
- 1.8m connection lead
- Flip-out hook for hanging
- H-Class approved (heavy duty / commercial)
- Weatherproof to IP55 in any position
- Weatherproof with and without outlet lead
- IK08 impact rating
- Clear lids for easy inspection
- Stainless steel security bracket
- RCD lid lockout tag
- Individually tested & numbered
- 2 year warranty
- Owned, designed and made in Australia
