

Electrical Solutions for Hairdressers & Barber Shops

Create a warm and inviting space for clients with electrical solutions from Trader,
Australia's fastest growing brand of switches, sockets and wiring accessories.

We are local, Australian owned and represented in every state and territory.

Multi-powered

Never run out of socket outlets for hairdryers and shavers with our Puma Big 4 & 5 Power points.

Featuring the same mounting centres as a standard double power point, these are a much safer alternative to loose powerboards and piggyback adaptors.

Charging up

Don't let customers run their phones flat.

Offer them the convenience of phone charging with our fast-charging 3.4A Type A&C USB chargers.

Available in various styles and colours

Wet hands

Make safety a priority with these Puma IP66 rated light switches.

Water and dust cannot bypass the gasket and come into contact with live parts.

Front of house

Make sure your office has all the power points, USB chargers and data you need to run an efficient workplace.

Low glare

Create a warm lighting environment with our Scorpion Low Glare LED Downlights. Providing directional, dimmable and colour changing light, these are perfect for salons.

Schedule it

Set a schedule for your signage and lighting to turn off every night at a set time with Senoa and Powermesh smart switches. Simply set on the Zimi App and forget.
