# Outdoor Switches & Sockets Weatherproof Range

The Hippo Switches and Sockets are ready for all Australian conditions of both sun and rain or where installations are exposed to a variety of tough environments.

# HIPPO™

**HIPPO**  
SWITCHES & SOCKETS ALSO  
AVAILABLE IN SHALLOW  
DESIGN AND BLACK FINISH

## ALL SOCKETS IP54 RATED 'ZONE 2' READY

Does not require a cover; It comes standard as IP54! No need for additional plastic socket flaps to achieve IP54 "ZONE 2" for pools, wet areas and ponds - as per AS/NZS3000.

ZONE 2 POOL SUITABLE  
NO CLEAR FLAP REQUIRED ON SOCKETS

Available through your Electrical Wholesaler

Trader's Hippo Switches and Sockets are ready for use by Australian Electrical Contractors. Australia has tough climatic conditions and the Hippo is ready to tough it out in the sun or rain or in any environment where products need enduring protection from the elements.

The Hippo range is ready for:

**Car parks, Garden Areas, Exterior Walls, Verandahs, Patios & Swimming Pools...**

... the list goes on and every electrical contractor needs the variety in this range. The Hippo has the conventional look the market and consumers are familiar with.

#### Switches (slide operation)

##### **HPSW1G, HPSW1GBK, HPSW2G, HPSW2GBK**

- 20A 16AX 250V rated modular weatherproof switches.
- Heavy duty switch mechanism with additional mech securing screws.
- Tough UV stabilised polycarbonate.
- IP66 ideal for prevention against water or harmful objects that may compromise conventional light switches. Perfect for use in exterior applications, or damp/dusty environments such as building exteriors, carports, gardens or workshops.
- One and Two Gang switch options in grey or black finishes.
- Back mounting boxes that contain 20mm and 25mm plain entries.

#### Sockets

##### **HPPP1G, HPPP1GS, HPPP1GBK, HPPP1GSBK, HPPP151G & HPPP1GVDR HPPP2G, HPPP2GBK, HPPP2GMBK, HPPP2GD, HPPP2GDBK, HPPP152G, HPPP2GS, HPPP2GDS. HPPP2GDSBK, HPPP152GD, HPPP152DBK, HPPP2GSC, HPPPSW2G & HPPSW2GBK**

- 10A and 15A 250V rated modular weatherproof sockets.
- Tough UV stabilised polycarbonate.
- IP54 Zone 2 ready, ideal for prevention against water splashes or harmful objects that may compromise conventional socket outlets.
- Single gang back mounting boxes that contain 20mm and 25mm plain entries.
- Double gang boxes containing 25mm plain and threaded entries.
- For HPPPSW2G twin socket with extra switch, the switch has a rating of 10AX.
- Full range available in grey. HPPP2G also available in black and Matt Black [HPPP2GBK/MBK]
- HPPP2GSC provides two terminal arrangements which enables installers to separate circuits.
- HPPP1GS and HPPP2GS provided with shallow base for minimalistic look.
- HPPP1GVDR single horseshoe shaped socket has reverse facing socket to allow fitment of longer plugs.
- HPPP2GD/HPPP2GDBK, HPPP2GDS/HPPP2GDSBK & HPPP152GD are Double Pole.

#### Twin Sockets Mounting Accessories

##### **HPPP2GBS, HPPP2GBSBK & HPSMK2G**

- HPPP2GBS Shallow mounting base enables flush install of twin socket range.
- HPSMK2G recessed mounting adaptor enables alternative flush fitment of twin sockets.

#### Switches (lever operation)

##### **HPSSWCDP220, HPSSWCDP235**

- 20A 16AX 250V and 35A 16AX 250V rated modular weatherproof switches.
- Heavy duty switch mechanism with additional mech securing screws.
- Covers, plates and dollies are made from UV stabilised polycarbonate to avoid discolouring to yellow.
- IP66 ideal for prevention against water or harmful objects that may compromise conventional light switches.
- 20mm & 25mm plain entries in back box.
- Double Pole switching, ideal for portable equipment or added safety.
