Available Now through your Electrical Wholesaler

Another range extension from Trader, Hyena Insulating Shrouds are ready for use by the Australian Electrical Contractor. The Trader shrouds are universal as possible across the market with as many mounting accessories, switches and sockets. We have also made this shroud from a plastic which is as friendly as possible on your hands when installing and as easy to use as possible when performing any cut outs and cable entry points required. It has been manufactured to be more economical than others on the market.
