

# Portable Building Solutions

Maximise the electrical safety of your portable office and accommodation units with the very latest electrical solutions from Trader, Australia's fastest growing brand of switches, sockets and wiring accessories.

We are local, Australian owned and represented in every state and territory. Every product is warranty backed.

## Double Pole Solutions

Our Puma Vandal Proof power point Double Pole solutions are fully compliant with Australian wiring rules for portable installations, temporary offices and accommodation units, as both the active and neutral circuits are switched. This provides greater safety as appliances are isolated and the user is completely disconnected from the mains.

## USB charging

We produce power points with built-in USB charging options offering both Type A&C ports, in double pole specification, perfect for charging the very latest phones.

## Multi powered

Keep on top of your power needs with our Puma double pole multi-gang power outlets. Eliminates the need for power boards and adaptors and potential safety hazards.

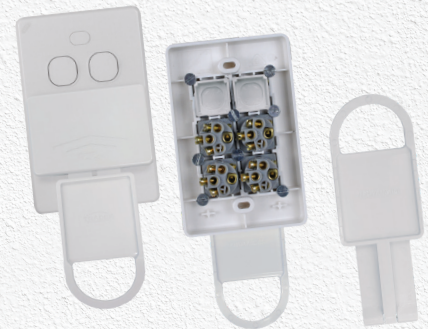

## Take it outdoors

Our Hippo Weatherproof double pole double surface switches (rated IP66) and power points (rated IP54) are made for life outdoors designed to withstand heat, rain and dust.

## Tag team

In permanent accommodation facilities our Puma Vandal Proof Key Tag Switch is a simple but energy efficient way to provide occupancy only room lighting access.

## Trip it

Protect your office staff, workers and expensive machinery with our Buffalo switched socket combination switches. Using portable generators for power? Get a great connection with our Buffalo appliance inlets.

## Energy efficient sensors & lighting

Maximise lighting efficiencies with Owl Infrared Sensors. Outdoor sensors provide full IP66 weather protection and work well with our Scorpion LED Floodlights.

## Stay fresh

Keep ensuite and kitchenettes odour free with our powerful but quiet Falcon exhaust fans. Duct grilles are 150mm duct compatible and suitable for ceilings between 5mm & 12mm.

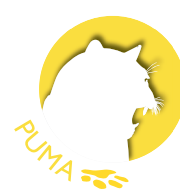

## Safe & sound

Our Bear photoelectric smoke alarms feature insect screens to protect the sensing chamber. Options include mains-powered or 10 year lithium battery only as well as wireless remotes.

## Fully loaded

Wolverine Circuit protection designed for Australian residential and commercial environments, quality manufacture and hi-vis colour-coded toggles for easy identification.
