

Trader's Powermesh Fan Controller with Light Switch is here!

THE WORLD'S COOLEST FAN CONTROLLER

Trader's Powermesh Fan Controller will make any ceiling fan a smart one.

Simply swap out your old controller for this slim switchplate design. Touch to turn the light on and slide to choose between seven different fan speeds. Pair it up with your phone and create a timer or schedule.

Add our Zimi Cloud as well as a Google Home speaker for instant voice control.

No fuss, easy to install.

- 7 speed AC fan control
- Compatible with most ceiling motor fans (up to 120W max)
- On/off control for lights (LED, fluorescent, halogen or incandescent lights – up to 250W max)
 - Swaps with common wall plate sizes
- Available in white PMFC or black PMFCBK (please check availability)
