

# Electrical Solutions Prisons and Correctional Facilities

Minimise the potential for electrical safety hazards in prisons and correctional facilities with Trader, Australia's fastest growing brand of switches, sockets and wiring accessories.

We are local, Australian owned and represented in every state and territory.

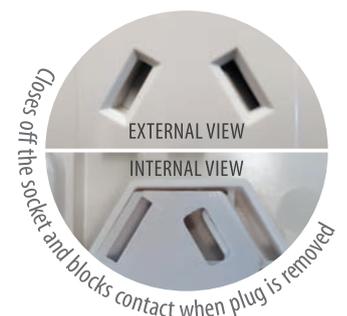

## Solid one-piece construction

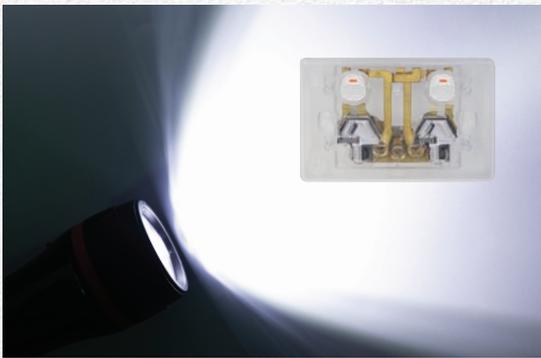

The Puma Vandal Proof range of switches and power points are a fit-for-purpose design created for public institutions. Covers are a fixed one-piece polycarbonate design that delivers an IK09 impact rating.

## Shuttered sockets

Vandal Proof Power Points are designed with shuttered sockets and will only accept 2 & 3 pin plugs.

## Clear solutions

Vandal Proof clear power point designed for correctional facilities to prevent contraband being hidden.

## Fast charging

For fast USB charging of secure tablets and devices, Vandal Proof range offers a choice of USBs with shuttered ports as well as double pole options

## Reinforced switch mechanisms

Vandal Proof switch mechs are reinforced with security screws to resist forced ingress of switch mechs that would otherwise create potential electrical hazards.

## Dedicated power

If you have essential service electrical equipment\* requiring dedicated power points, make sure staff and visitors are aware of these needs.

Red indicates essential supply and special body protected circuits.

Blue is UPS supply (uninterrupted supply) and typically used for computers. Labelling options available separately.

## Lock off, lock on

If you need to lock power off, our Powermesh connected technology can lock off any switch or power point instantly via the Zimi App.

If outdoors, our Hippo isolators and Buffalo switchgear has capability to lock on or off the switch in either position.
