

SNOW LEOPARD 

AFFORDABLE LUXURY

Snow Leopard Switches & Sockets Premium 'Glass Look' Range

The Snow Leopard – Trader’s NEW range of 'Glass Look' switches and sockets. The Snow Leopard range includes a new Spirit Level Feature - and the surround takes the 'Glass Look' cover right to the wall, so there’s no ugly black base diminishing the overall look or collecting dust.

NEW FEATURE
Built-In Spirit Level

Snow Leopard surround takes the glass look cover right to the wall.

7.5mm

Note: The Spirit Level is a guide only and installer should take all precautions to ensure the product is level. GSM Electrical takes no responsibility for any poor installations of the Snow leopard product.

SNOW LEOPARD

Trader's Snow Leopard has arrived - our 'Glass Look' range of switches and sockets are ready for use by Australian Electrical Contractors.

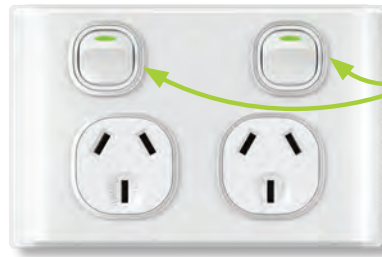

The Snow Leopard Spirit - New to the industry

A spirit level has been embedded in the grid plate as either a horizontal and/or vertical inclusion to assist the contractor.

This innovation is evidence that the team at Trader is considering the best possible aesthetic, whilst ensuring we think about new features for installers.

Snow Leopard surround takes the glass look cover right to the wall. There's no ugly black base distracting from the overall look or collecting dust.

Chrome Bezels

Note: The Spirit Level is a guide only and installer should take all precautions to ensure the product is level. GSM Electrical takes no responsibility for any poor installations of the Snow leopard product.

Our Snow Leopard has the added luxury of Gold Leaf applied to the plate. A *Premium Product* with a Touch of Class.
